at Great Ormond Street Hospital

Foundations in Paediatric Palliative Care 2 Day Interdisciplinary Virtual Programme

**A 2-day programme developed
and delivered by experts who
work in The Louis Dundas Centre
for Children's Palliative Care**

This interdisciplinary programme is open to all clinical staff including Nurses, Doctors and Allied Health Professionals with an interest in Paediatric Palliative Care.

The programme will cover a range of topics on advance care planning, ethics, decision making, assessment, symptom management, post death care, communication and loss and grief, and is aimed to help deliver the best possible palliative and end of life care.

The days will be delivered virtually and include a mixture of lectures, small breakout facilitated discussion groups and Q&A sessions.

Open to all clinical staff with an interest in Paediatric Palliative Care.
