NEONATAL Airway Training Course

The Neonatal Airway Training Course is hosted by a experienced and enthusiastic faculty of anaesthetists, neonatologists and the tracheostomy team. This course provides a structured approach to the assessment of the difficult airway and to introduce advanced airway skills.

COURSE STRUCTURE

- Introductions and aims
- Small group approach
- Basic and advanced airway skills
- High-fidelity simulation scenarios covering the critically ill neonate, difficult airway management and management of the neonatal tracheostomy.

TARGET AUDIENCE

All levels of paediatricians/anaesthetists welcome. from feedback, course ideal for paediatricians ST4 7 and anaesthetists ST3 5
