

Level 1/SHO **Teaching Programme**

We would like to invite you to attend our series of free, monthly teaching afternoons incorporating the Case Exchange with Level 1 teaching, which takes place on the second Tuesday of every month.

These sessions are now being offered online via zoom.

The programme will provide case-based, structured specialty teaching in line with the RCPCH curriculum. The afternoons consist of case discussions and interactive teaching sessions with tea and coffee provided. Teaching is aimed at ST1-3 trainees but junior doctors of any grade and medical students are most welcome
