

Emergencies in General Paediatrics

2024 Dates: 4th July, 23rd August, 8th November

Session time	9am – 5pm
Venue	Clinical Simulation Centre, Great Ormond Street Hospital for Children NHS Foundation Trust, Great Ormond Street, London, WC1N 3JH
Price	Free for internal staff £300 for external staff
Core target audience	All healthcare workers looking after paediatric patients
Faculty	Dr Shailee Sheth Simulation Educator Great Ormond Street Hospital Dr Linda Chigaru Consultant Intensivist, Specialty Lead for CATS, Consultant Paediatric Anaesthetist, Educational Lead for Clinical Simulation Great Ormond Street Hospital

This fully immersive, full-day simulation course aims to prepare medical staff to manage common general paediatric emergencies that they may encounter throughout training, whether working at GOSH or elsewhere. We will explore both the technical and human factors required to deliver safe and effective patient care.

Learning Objectives and Aims:

- Recognise an acutely unwell paediatric patient
- Escalate concerns through appropriate channels
- Work within in a team to follow advanced life support guidelines and initiate urgent medical treatment
