How to sign up	To book onto the course, please <a href="#">click here</a> .

### Who is this course for?

Physiotherapists currently practicing within a community and/or High Dependency environments.

### Course overview

This is a face to face simulation based study day, aiming to provide the opportunity to enhance practice by utilising existing paediatric physiotherapy knowledge and skills and navigating these in a simulated HDU environment, using HDU scenarios and workshops.

### Aims of the course:

- Develop clinical reasoning and non-technical skills within a critical care environment.
- Navigate acute paediatric care scenarios within a safe and supportive environment
- Gain an overview of current management of neuromuscular patients
- Explore the issues and practicing difficult conversations within physiotherapy.

### How to book:

Please [click here to book](#). If you wish to pay via your trust [click here to fill out an invoice request form](#).
